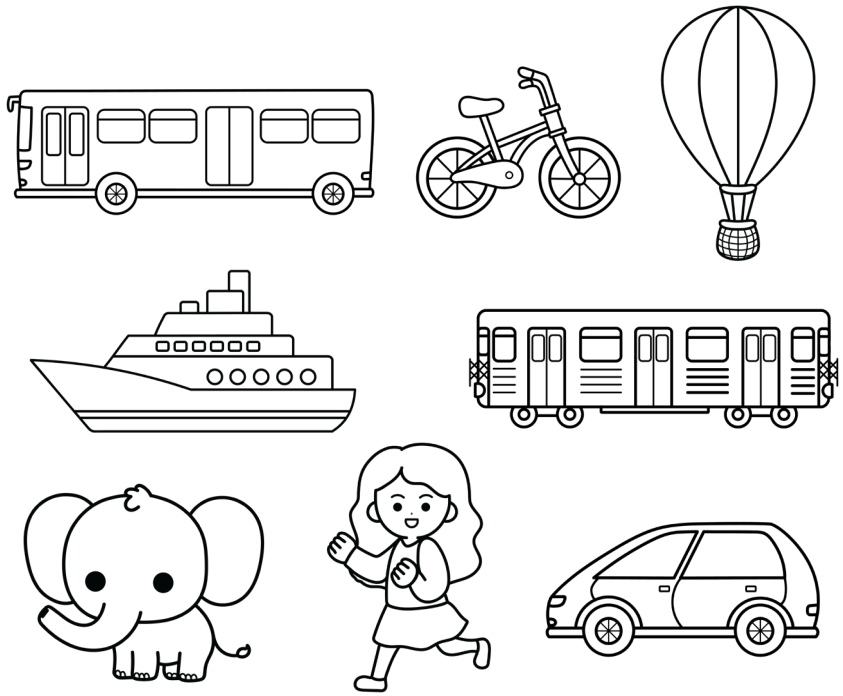
My CityWorks Journal

Name

nysci New York Hall of Science • 47-01 111th Street • Queens, NY 11368

City Transportation

1. Color the ways people travel in our city that you saw in the CityWorks exhibit.



2. Circle your favorite mode of transportation above and describe why?

My favorite way to travel is _____

because _____

_____

_____

_____

City Trains

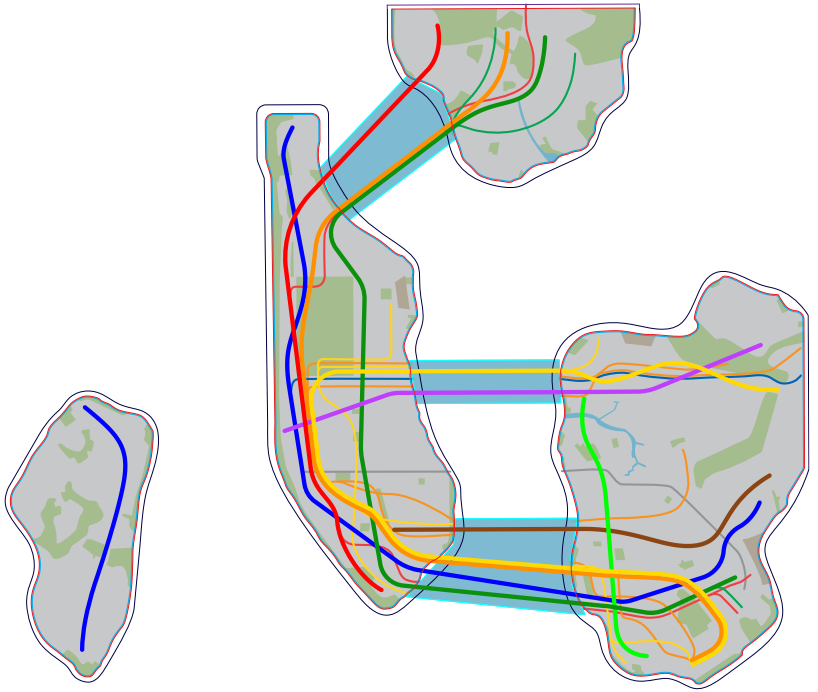
The subway system is a complex network of trains that connect the city. Look at the map below.

1. Circle the subway lines that go over the water.
2. Count how many different colored subway lines you see. _____
3. Why do you think we need so many subway lines in New York City?

_____

_____

_____



City Buses

At CityWorks, you sat in the driver's seat of a bus and saw the city from the driver's view.

1. Draw what you noticed from the bus driver's point of view. (People, cars, bikes, buildings, etc.)

2. Imagine you are a bus driver for one day. What would be the best part of your job? What might be hard about it?

The best part of being a bus driver is _____

_____

One hard part of being a bus driver is _____

_____

_____

City Workers

1. Many people work in the city to help it run smoothly. Match each City worker to the correct job.

Sanitation Worker
I keep the city clean

Engineer/Planner
I design things

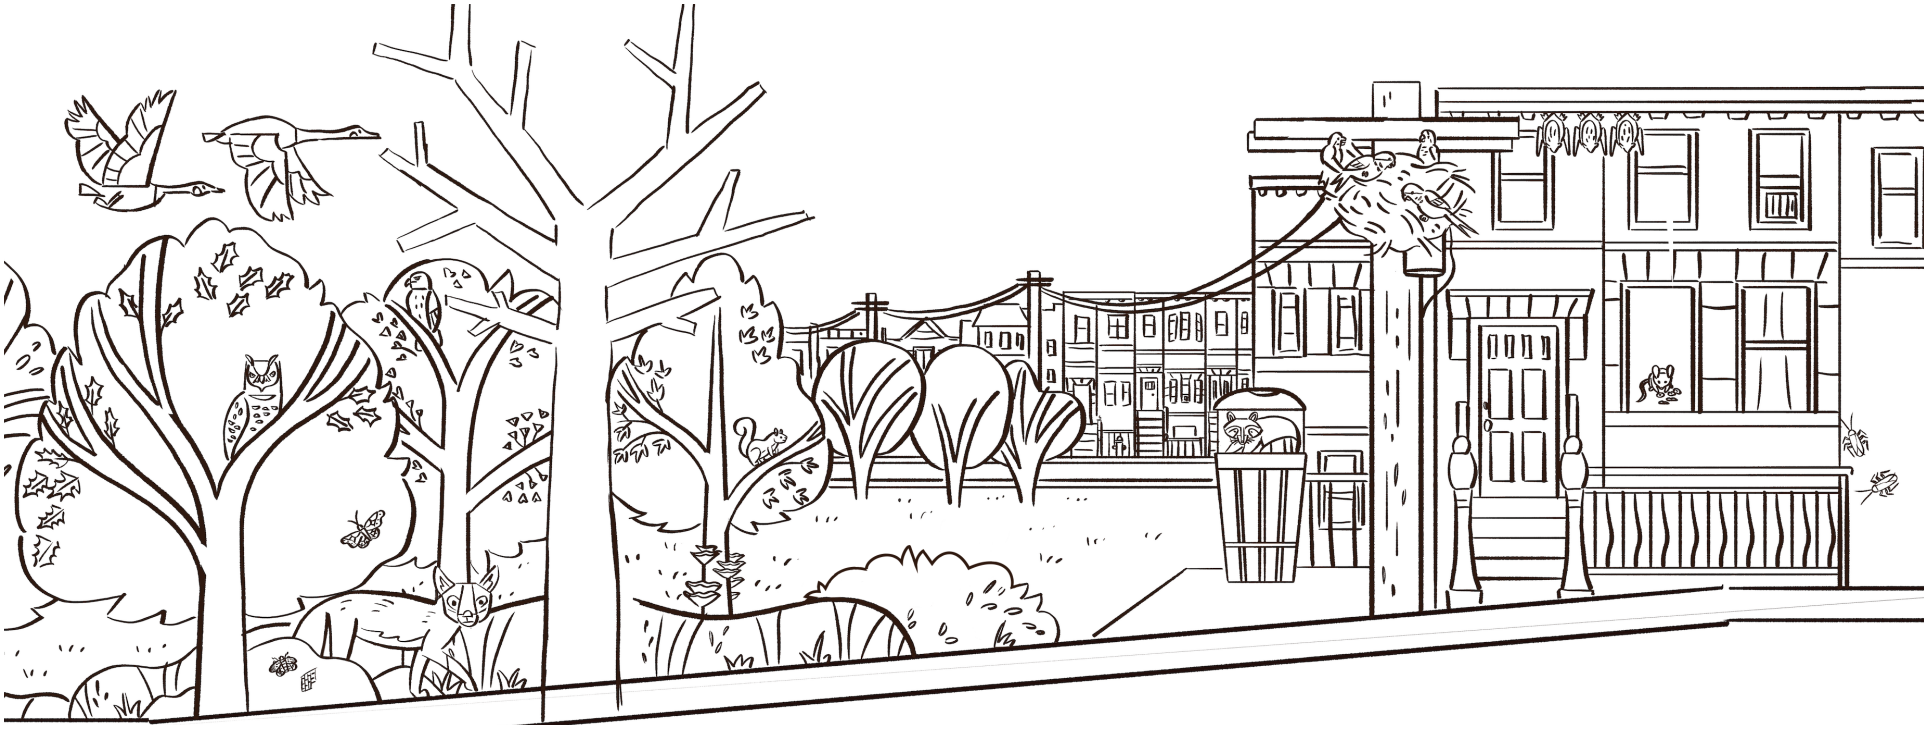
Construction Worker
I build things

Water Treatment Worker
I make sure your water is clean and safe to drink

Bus Driver
I help people get where they need to go

City Animals

1. Look for the urban animals in the CityWorks mural and circle in the ones you can find.



2. What animals do you see in your neighborhood? Describe what you see them doing.
